

***A TOPOGRAPHY OF THE MIND (FILMED CONFERENCE)***

**Michael C. Heller**

What do we know on how two interacting souls can contact each other? M. C. Heller uses current psychological knowledge to describe the intermediary cogwheels that are activated when two psychological individual systems try to interact with each other. He is author of a recent (2012) book on Body Psychotherapy published by W.W. Norton.

The conference was filmed for the 2005 congress of the International Association of Body Psychotherapy in Sao Paulo (Brazil).
