## **Published comments on my ideas**

I do not mention here the introductions of volumes I wrote in.

Compiled from the EABP archives, newsletters, Grey Books, minutes, emails, etc by **Jill van der Aa-Shand with Courtenay Young**. European Association of Body Psychotherapy (EABP). The First 35 Years. Connecting professionals, exchanging expertise, enabling collaboration. EABP HISTORY BOOK. This history has been added to with help from several members with a mix of personal recollections, reminiscences, and observations. The author(s) of this 'history' are totally responsible for all the mistakes, misinterpretations, economies with the truth, distortions, and general obfuscations – even though we have tried to tell it – as we saw it, lived it, read it, and embodied it. It will be available as a hard copy for sale at about 28 Euros. Postage separate of course.
